

ACTIVE TIMELINE & DEVELOPMENT PROGRESS

From a Boyhood Dream to Genesis Phase 0

Status: Genesis – Phase 0 (Early Stage)

As of: November 11 (Closing Q3 of the Lodge's First Fiscal Year)

Shiloh is not a sudden idea. It is the present chapter of a story that has been quietly unfolding for nearly a decade across the fields of Spring Valley.

What follows is a transparent, narrative-driven timeline so patrons, investors, and future residents can see **where we have come from, where we are now, and what comes next.**

I. The Long Arc of Vision (Early 2010s – 2019)

The Seed Years — A Young Steward in Training

- As a boy growing up at what is now the **Freedom Lodge** and spending his days across the road on the **family farm (Shiloh)**, Brodysseus began to sense that this land carried a destiny larger than any single generation.
 - He carried, even then, the mindset to plant fruit trees whose shade he would never sit in — to prepare a sanctuary for generations unborn.
 - These were the quiet, unseen years of **dream formation**—no documents, no charters, just a young man walking his ancestral soil with a sense of calling.
-

II. Emergence of the Idea of Shiloh & The Commonwealth (2019–2020)

The First Blueprints in the Mind's Eye

- Around **2019–2020**, as Brodysseus stepped into early responsibility for his family estate, the property began to take on a new identity as **The Freedom Lodge**.
- During this period, the earliest sketches of **Shiloh** and **The Commonwealth** began to appear: a regenerative eco-village, a sovereign economic micro-kingdom, and eventually a network of Commonwealth communities.

- The ideas were rough and ambitious—but they were clear enough to guide study, training, and deliberate preparation.
-

III. Years of Preparation, Apprenticeship & Refinement (2020–2024)

Skill-Building, Leadership & Proof of Stewardship

Between 2020 and 2024, the vision was pressure-tested and refined as Brodysseus deliberately moved through roles that would give him the skills needed to steward a civilizational project:

- **Law & Sovereignty** – Years of self-directed study into constitutional protections, trust law, private membership associations, and faith-based governance.
- **Commerce & Organizational Leadership** – Working with small businesses, consulting on operations, and learning the mechanics of real-world enterprise.
- **Construction & Development** – Serving as a **construction supervisor at Habitat for Humanity**, gaining hands-on experience in building homes, coordinating crews, and stewarding budgets.
- **Media & Cultural Programming** – Working with **Texas Music Café** and other productions, learning how to host, broadcast, and coordinate cultural events.
- **Community Building at the Lodge** – Gradually transforming his family estate into a living laboratory for community, fellowship, fitness, creativity, and hospitality.

These were the **apprenticeship years**—trial and error, blood, sweat, & tears, humbling failures and meaningful wins.

By the end of this period, the question was no longer *“Is the vision real?”* but *“When do we begin?”*

IV. Formalization of Shiloh: From Vision to Plan (November 2024)

The First Written Civilizational Blueprint

- In **November 2024**, the plans and timeline for Shiloh were formally committed to writing in the **founding strategy documents**.

- This moment marked the shift from “someday” thinking to **structured, phased development** with clear financial models, tokenomics, and governance design.
 - Shiloh was no longer just a dream in the heart of a steward; it became a **documented, architected, and modelled project** ready to move into implementation.
-

V. The Freedom Lodge: Institutional Birth & First Fiscal Year (2025)

The Mother Campus Comes Fully Online

- On **February 12**, the **Freedom Lodge** entered its official first fiscal year.
 - The Lodge charter was drafted.
 - The 508(c)(1)(a) ecclesiastical trust / FBO / PMA structure was legitimized.
 - An EIN was issued by the IRS, cementing the Lodge’s **faith-based, tax-exempt status**.
- This created the legal and spiritual “headquarters” from which Shiloh could be launched.

Spring Equinox – March 21, 2025 – Ribbon Cutting Ceremony

- On the Spring Equinox, we hosted our first **Ribbon Cutting & Dedication Ceremony**, publicly opening the Lodge as:
 - A sanctuary for men and women pursuing sovereignty and holistic health
 - A hub for cultural events, entrepreneurial incubation, and community fellowship
 - A demonstrative proof that Brodysseus could **steward land, leadership, and people** well

Q2–Q3 2025 – Operational Momentum

- Maximum on-site occupancy was achieved.
- Community events, workshops, and cultural gatherings became regular rhythm.

- The core development documents were drafted or refined, including:
 - **Shiloh Master Financial Model & Civilizational Economic Architecture**
 - **Prosperity Token & MEU frameworks**
 - **Shiloh Land Assessment & Acquisition Briefing**
 - **Floodplain & Land Harmony Briefing**
 - **Partnership & Institutional Outreach Briefs**
 - Early **soft commitments** and **advisory relationships** began to form around Shiloh.
-

VI. Where We Stand Now: Genesis Phase 0 (As of November 11)

The Moment Before the First Gate Swings Fully Open

We now stand in **Genesis – Phase 0**, the early operational stage of Shiloh's development.

As of November 11 (closing Q3):

- The Lodge has completed roughly **three quarters of its first official fiscal year** and is entering **Q4 in a posture of readiness and momentum**.
- Shiloh's founding documents, financial models, and civilizational economic architecture are drafted and live inside the **Prospectus Portal**.
- The **Shiloh Soft Commitments Portal** is active, collecting:
 - Donor intentions
 - Investor interest
 - Institutional partnerships
 - Residential & employment interest
 - Advisory and strategic alliances

- The **Shiloh Interest Group** is forming—a private community of prospective patrons, residents, workers, and allies.

Genesis Phase 0 is focused on:

1. Deepening Strategic Alignment

- Refining documents, presentations, and deal structures
- Clarifying the narrative for high-level partners

2. Strengthening the Capital & Partnership Base

- Engaging early donors, angel investors, and family offices
- Building relationships with universities, civic leaders, and aligned institutions

3. Preparing for Land Acquisition & Phase I

- Finalizing deal frameworks
- Mapping infrastructure requirements
- Integrating floodplain, zoning, and microgrid planning

This is the **consecration phase**—the quiet, deliberate work that ensures the first public moves are strong, lawful, and sustainable.

VII. Looking Forward: From Genesis to Phase I and Beyond

While Genesis–Phase 0 is underway, the roadmap ahead is already in view:

➤ Phase I – Land Acquisition & Foundational Infrastructure

- Secure the **86-acre Shiloh property**.
- Launch core utilities and microgrid design.
- Establish initial access roads, water systems, and key operational nodes.

➤ Phase II – Hospitality & Event Activation

- Launch prototype hamlet, glamping villages, and RV pads.
- Begin hosting retreats, festivals, and private events to generate cash flow and narrative momentum.

➤ Phase III – Residential Village & Core Campus

- Develop tiny home clusters, family homes, villas, bunkhouses.
- Construct the Great Hall, Shiloh Suites, Bazaar, Church & Sanctuary Gardens.

➤ Phase IV – Academy, Wellness, & Promethean Institute

- Build out the Promethean Institute, holistic wellness center, educational facilities, and advanced cultural infrastructure.

➤ Phase V – The Commonwealth Era

- Once Shiloh is mature and operationally stable, shift major development focus to the **Commonwealth Capital**—a 100–200 acre “city on a hill” that scales the model tenfold.

VIII. A Living Invitation to Walk With Us

The story of Shiloh is no longer an abstract dream.

It is a **tracked, documented, and unfolding development timeline**.

- The **vision** has been refined by a decade of preparation.
- The **Lodge** has been proven as a living prototype of culture and stewardship.
- The **documents** and **financial models** are in place.
- The **Genesis Phase** has begun.

From this point forward, every supporter, every patron, every investor, and every future resident who steps in becomes part of the active timeline of a rising Christian eco-civilization.

If you wish to stand with Shiloh while it is still young:

- **Read the Prospectus documents** in the Portal
- **Submit a Soft Commitment**
- **Join the Shiloh Interest Group**
- **Schedule a conversation with Brodyseus**

This is the chapter historians will point to as the beginning.
